Prizes Awarded and Certificates  
of Distinction Presented  
Yesterday.

VERY EXCELLENT LESSON

Highest Honors in School Goes  
to Edmund Strudwick, Jr.

Nolley's School for boys closed yesterday. The exercises, which were a usual, simple, took place in the school building, No. 107 North Pine Street. They consisted in presenting the certificates of distinction and the prizes. The principal, Mr. G. M. Nolley, then expressed his satisfaction with the earnest work done in the school during the past year. The exercises were held in the school building, No. 107 North Pine Street. Nolley, then expressed his satisfaction with the earnest work done in the school during the past year.

The school year just closed was one of the most successful in its history. During the next year Mr. Nolley will have with him Mr. J. M. Lear, who taught in this school for two years before going abroad. Mr. Lear for the past ten years has been studying in the university at Leipzig, and will bring to the school experience and the rare scholarship attained at that famous university.

New Chief to Test Utility of  
"Wheels" in His Department.  
Chief of Police Louis Werner is bending every effort toward giving the public better service through his department, and is, step by step, moving toward reforms calculated to accomplish this end. One thing may be said for Major Werner, and that is that he is chief in deed as well as in name. It is understood that it came to his ears that there was some little muttering among some of the men, as a result of his new order requiring them to report at regular intervals, so as to keep in close touch with their captains. He gave all to understand courteously, but firmly, that he was chief, and that there should be no criticism of any of his orders, upon penalty of being promptly reported to the board. "I am doing the best I can with what I have to work with," said Major Werner, in discussing some of the needs of the department with a Times-Dispatch man. The chief then went on to point out the need of more men, as well as that of a new station house in the first district, and said he earnestly hoped the Council would see fit to supply both of these needs. Major Werner is a believer in at least a limited number of bicycle police. To him this and he has had the two captains furnish him the names of the men who can ride bicycles, and in a short while he expects to experiment on this line in the eastern and western sections of the city. If the plan appears feasible, he will then put a limited number of men on wheels permanently.

## EXPERIMENT WITH THE BICYCLE POLICE

New Chief to Test Utility of

partment.

Chief of Police Louis Werner is bending every effort toward giving the public better service through his department, and is, step by step, moving toward reforms calculated to accomplish this end.

One thing may be said for Major Werner, and that is that he is chief in deed as well as in name. It is understood that it came to his ears that there was some little muttering among some of the men, as a result of his new order requiring them to report at regular intervals, so as to keep in close touch with their captains. He gave all to understand courteously, but firmly, that he was chief, and that there should be no criticism of any of his orders, upon penalty of being promptly reported to the board.

"I am doing the best I can with what I have to work with," said Major Werner, in discussing some of the needs of the department with a Times-Dispatch man. The chief then went on to point out the need of more men, as well as that of a new station house in the first district, and said he earnestly hoped the Council would see fit to supply both of these needs.

Major Werner is a believer in at least a limited number of bicycle police. To him this and he has had the two captains furnish him the names of the men who can ride bicycles, and in a short while he expects to experiment on this line in the eastern and western sections of the city. If the plan appears feasible, he will then put a limited number of men on wheels permanently.

## ROCKEFELLER AT LAST GETS OBNOXIOUS SALOON IN GRASP

MELIN'S SALOON AT TARRYTOWN.

Fighting Swede, Worsted By Standard Oil Man, Who Will Sur-  
round Him With Water.

(Special to The Times-Dispatch.)  
NEW YORK, June 12.—Evidently tired of his struggle with John D. Rockefeller, who objects to liquor being sold near his Pocomtuc Hills estate, John J. Melin has offered his saloon for sale. This marks the end of five years' war, which has been conducted in the courts, at the polls and before the State excise commissioner. Melin, a Swede, owns a two-story wooden structure, which he calls his inn. It stands at the junction of Third Avenue and the village of Boiesville, most of the inhabitants of which were patrons of Melin's inn. The town will be dry for a while, but not for long, as Mr. Rockefeller has proposed to remove all the houses and convert the site into an artificial lake. There will be water everywhere, but not a drop of liquor. On the margin of the lake will stand the inn. It is believed that Melin will soon leave the place and possibly return to Sweden.

He engaged in a fight against the election of a supervisor favored by Mr. Rockefeller, and owing to the defection of employees of the millenary, on whose support he had counted, Melin was defeated. He also brought suit against the owner of Boiesville for \$20,000 for personal injuries alleged to have been sustained while driving in one of Mr. Rockefeller's private roads.

The last Rockefeller coup, however, seems to have been the undoing of the Swede. The king of oil bought up the whole village of Boiesville, most of the inhabitants of which were patrons of Melin's inn. The town will be dry for a while, but not for long, as Mr. Rockefeller has proposed to remove all the houses and convert the site into an artificial lake. There will be water everywhere, but not a drop of liquor. On the margin of the lake will stand the inn. It is believed that Melin will soon leave the place and possibly return to Sweden.

It was his contention that the Anti-Saloon League was on confidential terms with his wealthy opponent. Two detectives obtained evidence that he had served drinks without the customary license law amendment in the form of a sandwich. He denounced them as sons of Bialla. His license was apparently revoked, but when it came to final action it was found that owing to some clerical error the wrong permit had been cancelled, and he got a new one without any trouble.

He had received a legacy from his Swedish relatives, which he said was \$100,000, and he declared that he was not particular about leaving an establishment to which he had become attached. As long as wayfarers traveled on the public road, which Mr. Rockefeller could not close, Melin insisted that he was prepared to dispense drinks over the bar. Some of the Rockefeller employees had a liking for the publican and also for the fact which he sold, and once he had fifty of them lined up to vote for his candidate in a local election.
